From Research to Scholarship in the Physical Sciences:

unexpected hurdles and where to find welcome support

Retraining my brain for project designs, analyses & cogitations

HURDLES

I needed new approaches to:

- Planning
- Asking the **right** (informed) **question** *before starting*
- Data gathering
- Analyses (quant. vs qual.)
- Ethics
- Fear/Frustration of the unknown/new/differences

SUPPORT

There is so much out there!

- LTS colleagues
- *via* collaborations
- **LEADS (!!!!)**
- LTS CPD (LEADS)
 - Lecturers & Peers
- Establish links
 - Cold calling strangers
- **SoTL support groups**
